

Joshua Tree National Park

BRING WATER WITH YOU INTO THE PARK

Water is available at only a few locations: the Oasis Visitor Center in Twentynine Palms, Black Rock Campground, Cottonwood Campground, the West Entrance, and Indian Cove Ranger Station.

STAY HYDRATED & EAT SALTY SNACKS

We recommend drinking a minimum of one gallon (about 4 liters) of water per person, per day. You will need more fluids if you are active. Replace electrolytes by drinking sports drinks or consuming salty foods.

PROTECT YOURSELF FROM HEAT & SUN

Expect high daytime temperatures, intense sunlight, and low humidity. Wear loose-fitting, light-colored clothing and a wide-brimmed hat. Apply sunscreen to all exposed skin. Protect your eyes by wearing sunglasses.

GIVE WILDLIFE A BRAKE

Park roads are narrow and winding, and some areas are often congested. Obey posted speed limits. The maximum speed in the park is 45 mph (73 kph), and in many locations the speed limit is lower. Driving slowly and cautiously helps protect park wildlife.

CELL PHONES ARE UNRELIABLE

Most of Joshua Tree National Park is remote wilderness and there is *no cell coverage*. Do not count on your phone for navigation or for getting help in an emergency.

IN CASE OF EMERGENCY ...

Emergency phones are found at **Indian Cove Ranger Station** and the **Intersection Rock parking area** near Hidden Valley Campground. If you are in an area with cell service and you have an emergency, **call 911 or 909-383-5651** for assistance.
